

What you can Spend Renown on

- You can increase your social class
- Gain access into special areas of your class (Called **Paths**)
- Gain entrance to a special organization like the AG (Called **Paths**) or Lords of Chaos.
- You can buy land or a business
- Favors
 - Such as a safe place to hide
 - Room and board for a short while
 - Immunity, either legal or diplomatic
 - Transportation
 - Better familiar

Social Class increases are cumulative, sometimes this might get you married to get the title. You also need to earn the renown with someone who is high enough (*In the next higher color*) to grant you the title or approve the marriage. Yellow titles can only be granted by a king or emperor. Realize also that children although not slaves can be compelled into marriages to pay off or earn renown.

Paths

The cost will vary by path and what you gain. Some may grant the ability to craft magic items while others may train you in new skills or feats, give you access to information, give you access to new spells. Clerical paths could grant sacred or supernatural abilities.

Land or Business

Highly dependent on income it is expected (by seller) to generate.

A normal inn 30 renown

A ¼ acre piece of land in the city 5 renown

An acre of land in a civilized area is 3 renown

An acre of land in a uncivilized area is 1 renowned

Favors

Favors depend highly on the danger and duration.

Hiding from your wife who thinks you are cheating, might cost 1 renown per week

While hiding from the kings guard would cost 2 renown per day.

Room and board would be about 1 renown per week.

Legal or Political Immunity would depend on how high up the immunity goes up but it can be expensive.
